Aberdeen Cadaveric Hand Trauma Course

23rd to 24th of May 2024

www.cadavericsurgicalcourses.com

Our hand trauma course is a highly interactive hands-on course that is structured to meet the needs of surgeons training in Plastic or Orthopaedic Surgery. Participants will learn the surgical techniques for dealing with hand trauma, with emphasis on soft tissue injuries, including tendon repair, flap reconstruction and fracture fixation. The course format includes practical skill sessions using fresh frozen cadavers with well preserved specimens which provide true to life operative experience.

With a faculty to participant ratio of 1:2 this course represents excellent value for money.

This course is aimed at CT1-ST4 in Plastic & Orthopaedic surgery

The Aberdeen Cadaveric Hand Course is fully accredited by the Royal College of Surgeons of Edinburgh and by BAPRAS.

Programme

Day 1

| | |
|---------------|---|
