

HAND SURGERY FOR SPECIALIST TRAINEES

Edinburgh Hand Course

26/28 April 2010

**NHS Education for Scotland
The Lister
11 Hill Square
Edinburgh EH8 9DR**

This hugely popular course is aimed at ST3-ST6 orthopaedic and plastic surgery trainees. It covers the hand syllabus for the FRCS (Ortho) and FRCS (Plast) examinations, and is a useful revisionary course for candidates about to sit these exams.

20-30 minute lectures will be given by orthopaedic/plastic surgery consultants with a major interest in hand surgery, and there will be adequate time for discussion at the end of each lecture. **There will be small group clinical examination and viva practice.**

CONTENT

Topics will include: fractures and joint injuries, tendon injuries, nerve injuries (including brachial plexus), the arthritic hand, tumours, hand amputations and upper limb prosthetics, peripheral nerve compressions, infections, reflex sympathetic dystrophy, compartment syndrome, Kienbock's disease, congenital anomalies, tendon transfers, soft tissue cover, carpal fractures and instabilities.

ORGANISERS

Ms Jane McEachan, Consultant Orthopaedic and Hand Surgeon, Queen Margaret Hospital, Dunfermline

Ms Dominique Davidson, Consultant Plastic and Hand Surgeon, St John's Hospital, Livingston

FEE

£395 (Includes documentation, morning coffee, light lunch, afternoon tea/coffee each day and a course dinner on one of the evenings - does not include accommodation).
